COVID-19 Prevention at UT

The outbreak of COVID-19 in Taiwan is very well controlled. UT follows the instructions of Taiwan Centers for Disease Control (CDC) and fights against COVID-19 together. Hope the outbreak will end soon and life can get back to normal.

Prevention measures on campus

- Everyone should only enter the campus through the main entrance. Other entrances are closed.
- Before you enter the campus, temperature check should be made.
- Everyone should prepare a surgical mask and wear it when necessary.

What students should do

- Wear a face mask.
- Wash your hands often.
- Avoid going to public places unless necessary.
