

Hello Dear Friends!

UT Builds New Partnerships

In the spring semester of 2020, the University of Taipei has built partnerships with 15 higher education institutions from 9 countries: France, Portugal, Canada, South Korea, Thailand, Indonesia, Kazakhstan, Spain, and USA. Thanks to the advance of technology, online meetings and emails help us successfully communicate with each other in the difficult time of COVID-19. We look forward to exploring potential cooperation opportunities with our partner universities.
