## 壹、緣起

行前準備(100字)

The reason I choose to exchange in Georgia College is because I've never been to America. I'm quite curious of this 9,372,610 square kilometers continent. Also this big land deeply affect international economic. They also have a lot of celebrities such as Steve Jobs, Elon Musk and large amount of famous company are founded here for instance ,Google, Microsoft, Intel, etc. These make me want to understand how the U.S. education system works so they can cultivate so many influential person . I want to explore more about this country, and experience more cultural differences.

## 貳、研修學校簡介

學校介紹(100字)

Georgia was founded in 1889 in Milledgeville. This college is pretty similar to our school, University of Taipei .Both of them are education system for training women teacher in the past and transform into normal university for both gender . There are more than 6,000 students in this college , which is quite small in this state . The campus is divide into West campus, East campus, main campus, and Flanders O' Connor Museum.

## 參、國外研修之課程學習(課內)

#### 修課課程內容 (100 字)

The courses that I studied in this semester were Business Finance, Macroeconomics, Physical Geology and laboratory, and American culture and language. In macroeconomics I've learnt a lot of useful knowledges such as how demand and supply affect the price of market. In Physical Geology I learned a lot of geology similar to my background but the example are American local landform, which let me understand how this big continent formed more .I learned very useful knowledge in business finance, which been described as one of the most difficult class in our school. I learned how to count simple and coupon interest ,and how to analyze a reasonable price and bond of a company. And American culture is the class I don't recommend, because I didn't learn any thing during the course and I'm already in America .I can learn their culture from my local friends. Compare to the course choosing the information they want us to learn, I prefer to learn the culture differences from life.

#### 肆、 國外研修之生活學習(課外)

交換學校住宿、當地／該校學生活動、費用 (保險費／生活費／特殊支出)、或是在當地遇到的特殊經歷(200 字)

I choose to live in Bell Hall. It is dorm that is closest to our campus .Only Bell Hall has offered the option of double room. So you can have a roommate if you choose to stay there .And it' s also cheaper if you share your room with someone else. Total of the tuition fee is around 4,000 U.S. dollar for one semester. But this time we need to pay an extra 1,000 dollar for insurance. I think it was very unreasonable because this is a big amount of money they should have told us before we came. Not when we arrived and tell us if we do not pay the insurance they will have to send us back. It does not make us feel good in this kind of situation. I know the insurance is for our health care. But after I read the policy, it only cover a little partial of medical payment if we get sick or injured during our semester, which seems to be very useless. I think we got scammed by the government. Fortunately, the

people I met in the U.S. are so kind. They gave me an unforgettable experience ,which change my mind of American.

## 伍、 研修之具體效益

(請條列式列舉 150 字)

I have gained from all aspects .In term of schoolwork ,I order to have more time to hang out with my friend I push myself to study in a more time efficient way, instead of spending a lot of time in the library which I used to do. In terms of international culture , since we have exchange students from all over the world. I not only learned American culture but also learned cultures from German, Sweden, Mexico, Korean, and Hong Kong. I get to know more about different countries culture and realizing how people from different countries think about Taiwan .But I learned the most is American culture. I learned how they style, their food culture, what kind of house they live , the way they enjoy their life.

## 陸、 感想與建議(含 3 分鐘短片連結)

心得經驗分享以及給未來參加交換計畫同學建議(350 字)

I highly recommend students in University of Taipei take the chance to study abroad. You will get a different point of view after you take this program. You push yourself out of the comfort zone. You left your family, friends, the place you familiar with. In the new school there will be no one you known, everything will start from zero. However, you meet new friends there. Start adapting the new environment. Learning new courses from the different aspect. There will be a lot if problem waiting for you. You might be panic, but every time you facing new problems it become easier to solve. It feel like you keep challenging new stuff. Finally you take it like breathing. After you studied a semester or one year. You will have to say good bye to good friends you made in campus. You might be freaked out by the unpredictable future there is no promising that you can meet each other again, but you hope. There will be a lot of people you want to thank but don' t know how. This is life.

You go to a new place, meeting new people. You think you getting used to the new place then you say goodbye and leave. Although you promise your friend you will come back again, but you can't promise what will happen next. We hope the friendship continue, but you need to know it will take a lot of effort. After you go back to your country, you realize everything is not the same anymore. Your friend might not be as good as you used to. Only good friend stay. When you come to the place you used to go ,it will never be the same .

具代表性出國交換照片說明(4張)

圖 1

圖 1 說明(20 字)

Fast food restaurant is a very important culture in America. Every fast food restaurant need a drive thru to start their business. Chick-Fil-A is a very famous store originates from Georgia. They also have a store in our campus but I suggest the store outside the

campus.

圖 2

圖 2 說明(20 字)

My impression of American food is unhealthy, you can see because of the demand, they have a lot of can brand. Also because of the long distance from place to place, so they need food that have longer expiation date, which means the food will be more artificial.

圖 3

圖 3 說明(20 字)

Automobile is a important part of American culture. Because the land is very big, teenager can start driving at the age of 16. It also means life will be very hard if you can' t drive in the U.S. You can see the cars rear bumper was destroyed is because sometimes you might have a chance to get hit by animals like deer.

圖 4

圖 4 說明(20 字)

Before I came to the city which has subway. My friend always told me that it will be very dirty. But as I saw, the subway is not dirty at all. But the street is.
